ABOUT ME

Hello, I'm Aftab, a Designer and Front-End Developer specializing in Web Design and Digital Media. I have more than 3 years experience in creating effective and user-focused interfaces for web & mobile environments. I am skilled in creating design concepts from scratch and following them through the development life cycle.

Key expertise:

- A strong eye for pixel perfect, minimal and easy to use interfaces
- Strong understanding of UX, information architecture and latest web design trends
- Ability to solve complex business problems through objective-based design
- Excellent knowledge of Adobe Creative Suite (Photoshop with extensive use of shortcuts)
- Perfect understanding of modern HTML, CSS, LESS, JS
- Passion to create grid based designs and build responsive websites
- Experience designing UI for iOS and Android applications
- Knowledge of the version control system Git
- Excellent understanding of business operations and a project development workflow.

OBJECTIVES

To work in a creative, challenging environment that will hone my design skills and help me grow as a professional.
